

Table 1: Contenido de .bib

Referencia	Titulo	Autores
J43P		David G Hala Low
mik-05		Krystian Mikolajczyk and Cordelia Schmi
Sh:4	On theories T categori- cal in T	Shelah Saharo
Sh:5	On languages with non- homogeneous strings of quantifier	Shelah Saharo
Sh:6	A note on Hanf number	Shelah Saharo
Sh:7	On the cardinality of ul- traproduct of finite set	Shelah Saharo
Sh:8	Two cardinal compactnes	Shelah Saharo
Sh:9	Remark to “local defin- ability theory” of Reye	Shelah Saharo
Sh:10	Stability the f.c.p. and su- perstability; model theo- retic properties of formu- las in first order theor	Shelah Saharo
Sh:11	On the number of non- almost isomorphic models of T in a powe	Shelah Saharo
Sh:12	The number of non- isomorphic models of an unstable first-order theor	Shelah Saharo
Sh:13	Every two elementarily equivalent models have isomorphic ultrapower	Shelah Saharo
Sh:14	Saturation of ultrapowers and Keisler’s orde	Shelah Saharo
refPZZ	Arxiv. Michael T. Goodrich	
refVZZ	Visual Studio Code	
ref1	Zig-zag	
ref2	Python para todo	Raúl González Duqu
ref2.1	Clases	
refFor	Aprende Pytho	Sergio Delgado Quinter
refrange	4.3. La función range()	
refLen	Funciones	
refIf	Aprenda a Pensar Como un Programador con Pytho	Allen Downey-Jeffrey Elkner-Chris Meyer
Continued on next page		

Table 1 – continued from previous page

First column	Second column	Third column
refSort	Introducción a la programación en Pytho	
mpls	MPLS Label Distribution Protocol (LDP)	
anatohipervisor	La AAAAnatomía de un Hipervisor Linux	Juan López Hernández
MT-04	Raspberry P	Raspberry Pi-Foundatio
ScanRobotBookScanning		ScanRobo
FourDigitalBookScanning		Four Digital Book
Abarbanel2001	Synchronization and communication using semiconductor lasers withopto-electronic feedbac	Abarbanel H. D. I. and Kennel M. B. and Illing L. and Tang S.and Chen H. F. and Liu J. M
Arfken2001	Mathematical methods for physicist	G. B. Arfken and H. J. Webe
Argyris2005	Chaos-based communications at high bit rates using commercial fibre-opticlink	Argyris A. and Syvridis D. and Larger L. and Annovazzi-Lodi V.and Colet P. and Fischer I. and Garcia-Ojalvo J. and MirassoC. R. and Pesquera L. and Shore K. A
Blakely2004Chaos	Experimental observation of delay-induced radio frequency chaos ina transmission line oscillato	Blakely J. N. and Corron N. J
Blakely2005	Simply folded band chaos in a VHF microstrip oscillato	Blakely J. N. and Holder J. D. and Corron N. J. and Pethel S.D
Blakely2004QE	High-speed chaos in an optical feedback system with flexible timescale	Blakely J. N. and Illing L. and Gauthier D. J
Carroll1995	Nonlinear Dynamics in Circuit	T. Carroll and L. Pecor
Celka1997	Delay-differential equation versus 1D-map: Application to chaos contro	Celka P
Sh:1	Stable theorie	Shelah Saharo
Sh:2	Note on a min-max problem of Leo Mose	Shelah Saharo
